

## TABLE OF CONTENTS VOLUME 2

---

### CONTINUED FROM VOLUME I

I. SOLIDIFICATION OF METALS	6
Freezing of Pure Metals	8
Freezing of Alloys	9
Phase Diagrams	16
II. ALUMINUM ALLOYS:	21
The Effect of Alloying Agents	21
Grain Refiners	23
Solution Heat Treatment & Precipitation	
Hardening	25
The Composition of Aluminum Alloys	27
Melt Reactions	32
Aluminum Melting Practice	35
III. COPPER ALLOYS, BRASS & BRONZE	42
Copper-Based Casting Alloys	45
Silicon Bronze	45
Brasses	46
Manganese Bronze	47
Tin and Leaded Bronze	50
Aluminum Bronze	54
Solidification Range of Copper Alloys	58
Brass and Bronze Foundry Practice	59

IV. METALLURGY OF IRON	65
Carbon	68
Silicon	69
Carbon Equivalent	70
Alloying Elements	72
Ductile Iron	74
Alkali Fluxes	75
V. GATING SYSTEMS	77
Parts of a Gating System	77
Filters	87
Design of Gating Systems	88
VI. RISERS AND FEEDING OF CASTINGS	99
Directional Solidification	104
Chills	105
Heat Loss From Risers	108
Making Insulated Riser Sleeves	111
VII. PATTERN MAKING	117
Shrinkage	117
Machining Allowance	118
Fillets	119
Wax Extruder	120
Follow Boards	121
Core Prints	124
Stop Offs	125

Rubber molds	129
Building a Vacuum Chamber	137
Making a Match Plate	140
VIII. FOUNDRY PROJECTS	148
Make a Sturdy Flask Lock	148
Make an Knee Operated Air Valve	152
Cylinder Head Casting	160
Piston Casting	169
X. AUTOMOTIVE CASTINGS	172
Casting Piston Rings	172
Production of the Ford Flathead V-8	178
XI. MISCLANENIOUS	185
Molding Deep Fins	185
Lifting Force on Cope	186
XI. CONCLUSION	187
BIBLIOGRAPHY	188
SUPPLIERS	189
COMPOSITION OF ALUMINUM ALLOYS	190
INDEX	191
