## THE SMALL FOUNDRY SERIES :

### IRON MELTING CUPOLA FURNACES

Complete plans and operating instructions for a 10" diameter cupola that will melt 330 pounds of iron per hour when powered by a shop vac! Also included are plans for a high-pressure blower that will increase the output of the small furnace to 660 pounds per hour. All can be built for little cost, mostly from scrap.

ISBN 0-9702203-0-8

128 pages \$19.95

### BUILD A TILTING FURNACE

Complete plans and operating instructions for a tilting furnace that easily melts 100 pounds of aluminum per hour. Melt with propane, diesel, or used motor oil! Using the tilting mechanism, you will never have to handle a hot crucible again. Start, stop, and hold the furnace at any angle for precise pours. Furnace may be modified to melt other metals.

ISBN 09702203-1-6

192 Pages \$19.95

### METAL CASTING: A SAND CASTING MANUAL VOL. 1 & 2

Learn how to cast metal in sand molds using simple techniques and readily available materials. Steve Chastain, a Mechanical and Materials Engineer shows the beginner how to make a sand mold and then how to hone your skills to produce high quality castings. Written in non-technical terms, the sand casting manuals begin by melting aluminum cans over a charcoal fire and end by casting a cylinder head. All for little cost in your own back yard! Includes the basic metallurgy of aluminum, iron and copper-based alloys. Sold in over 30 countries, Chastain's popular "Small Foundry Series" is good for both the beginner and experienced metal caster.

VOLUME I ISBN 0-9702203-2-4

208 Pages \$19.95

VOLUME II ISBN 0-9702203-3-4

192 Pages \$19.95

### MAKING PISTONS FOR RESTORATION ENGINES

Bring even the most "impossible" old engines back to life for little cost! You are no longer limited by the price and availability of replacement pistons and rings when you can make your own. Use inexpensive modern piston rings on your antique equipment! Design and make pistons for new or old engines. Learn to make all the tools and jigs needed to quickly produce top quality replacements in your own back yard. Heavily illustrated. A "must have" for antique equipment restorers!

ISBN 09702203-4-0

64 Pages \$11.50
